NAME REDACTED

Appellant

V

THE REVENUE COMMISSIONERS

Respondent

DETERMINATION

Introduction

1. This appeal concerns the valuation of a vehicle for the purposes of ascertaining the open market selling price ('OMSP') in respect of the calculation of Vehicle Registration Tax ('VRT'). This appeal is determined in accordance with section 949U of the Taxes Consolidation Act 1997, as amended ('TCA 1997').

Background

2. The vehicle, the subject matter of this appeal, is a Nissan Pulsar N-Tec Dci, registration **[REDACTED]**, which was assigned an OMSP of €13,257 on 13 Oct 2017, resulting in VRT payable of €2,485. On appeal, the Respondent reduced the rate of VRT applicable, which resulted in a refund of €496, which was notified to the Appellant by letter dated 13 Oct 2017.
3. The Appellant filed a notice of appeal on 23 October 2017, contending that the OMSP of €13,257 should be reduced based on a comparative analysis of similar vehicles and their respective valuations and because the vehicle had suffered category C type damage previously. The Appellant contended that the OMSP assigned should be in the region of €5,500.

Legislation

Section 146 of the Finance Act 2001:

“A person who is aggrieved by a determination of the Commissioners under section 145 may, in accordance with this section, appeal to the Appeal Commissioners against such determination and the appeal is to be heard and determined by the Appeal Commissioners whose determination is final and conclusive unless a case is required to be stated in relation to it for the opinion of the High Court on a point of law.”

Section 133 Finance Act,1992, as amended:

(1) Where the rate of vehicle registration tax charged in relation to a category A vehicle or a category B vehicle is calculated by reference to the value of the vehicle, that value shall be taken to be the open market selling price of the vehicle at the time of the charging of the tax thereon.

(2)(a) For a new vehicle on sale in the State which is supplied by a manufacturer or sole wholesale distributor, such manufacturer or distributor shall declare to the Commissioners in the prescribed manner the price, inclusive of vehicle registration tax, which, in his opinion, a vehicle of that model and specification, including any enhancements or accessories fitted or attached thereto or supplied therewith by such manufacturer or distributor, might reasonably be expected to fetch on a first arm's length sale thereof in the open market in the State by retail.

(2)(b) A price standing declared for the time being to the Commissioners in accordance with this subsection in relation to a new vehicle shall be deemed to be the open market selling price of each new vehicle of that model and specification.

(2)(c) Notwithstanding the provisions of paragraph (b), where a price is declared for a vehicle in accordance with this subsection which, in the opinion of the Commissioners, is higher or lower than the open market selling price at which a vehicle of a similar type and character is being offered for sale in the State at the time of such declaration, the open market selling price may be determined by the Commissioners for the purposes of this section.

(3) In this section— ‘new vehicle’ means a vehicle that has not previously been registered or recorded on a permanent basis—

(a) in the State under this Chapter or, before 1 January 1993, under any enactment repealed or revoked by section 144A or under any other provision to like effect as this Chapter or any such enactment, or

(b) under a corresponding system for maintaining a record for vehicles and their ownership in another state,

and where the vehicle has been acquired under general conditions of taxation in force in the domestic market

'open market selling price' means—

(a) in the case of a new vehicle referred to in subsection (2), the price as determined by that subsection,

(b) in the case of any other new vehicle, the price, inclusive of all taxes and duties, which, in the opinion of the Commissioners, would be determined under subsection (2) in relation to that vehicle if it were on sale in the State following supply by a manufacturer or sole wholesale distributor in the State,

(c) in the case of a vehicle other than a new vehicle, the price, inclusive of all taxes and duties, which, in the opinion of the Commissioners, the vehicle might reasonably be expected to fetch on a first arm's length sale thereof in the State by retail and, in arriving at such price—

(i) there shall be included in the price, having regard to the model and specification of the vehicle concerned, the value of any enhancements or accessories which at the time of registration are not fitted or attached to the vehicle or sold therewith but which would normally be expected to be fitted or attached thereto or sold therewith unless it is shown to the satisfaction of the Commissioners that, at that time, such enhancements or accessories have not been removed from the vehicle or not sold therewith for the purposes of reducing its open market selling price, and

(ii) the value of those enhancements or accessories which would not be taken into account in determining the open market selling price of the vehicle under the provisions of subsection (2) if the vehicle were a new vehicle to which that subsection applied shall be excluded from the price.

Section 132 Finance Act, 1992, as amended:

(3A) Notwithstanding subsection (3), where the Commissioners are of the opinion that a vehicle has not been registered at the time specified in Regulation 8 of the Vehicle Registration and Taxation Regulations 1992 ([S.I. No. 318 of 1992](#)), the amount of vehicle registration tax due and payable in accordance with subsection (3) shall be increased by an amount calculated in accordance with the following formula:

$$A \times P \times N$$

Where –

A is the amount of vehicle registration tax calculated in accordance with subsection (3),

P is 0.1 per cent, and

N is the number of days from the date the vehicle should have been registered in accordance with Regulation 8 of the vehicle Registration and Taxation Regulations 1992 and the date of registration of the vehicle.

Submissions and analysis

4. All vehicles are subject to VRT on first registration in the State. The rate of VRT is based solely on the level of CO2 emissions. The OMSP of a vehicle is determined in accordance with section 133 Finance Act 1992, as amended *i.e.* on the price, inclusive of all taxes and duties, which, in the opinion of the Commissioners, the vehicle might reasonably be expected to fetch on a first arm's length sale thereof in the State.
5. The OMSP ascertained in relation to the vehicle the subject matter of this appeal, was €13,257. The Appellant appealed to the Tax Appeals Commission on grounds that a comparative analysis of similar vehicles and their respective valuations supported the assignment of a reduced OMSP and that the vehicle had suffered category C type damage previously. The Appellant submitted that the particular model of the vehicle, the subject of this appeal, is not sold in Ireland and that, as a result, she had no option but to furnish UK valuations. The Appellant furnished several print outs of similar model vehicles for sale with similar specifications which were advertised for sale in the UK. The particular circumstances of this appeal render it appropriate to take into consideration the UK valuations however, as a general rule, a comparative vehicle analysis will be based on Irish valuations.
6. In accordance with section 133 Finance Act, 1992, an OMSP valuation is concerned with the value the vehicle might reasonably be expected to fetch on a first arm's length retail sale in the State, at the time of registration. Having reviewed print outs of similar models of this vehicle for sale in the U.K., I am satisfied that an OMSP of €12,500 is a fair and reasonable OMSP in the within appeal.

Conclusion

7. I determine €12,500 to be a fair and reasonable OMSP in relation to the vehicle, the subject of this appeal. The appeal hereby is determined in accordance with section 949AL TCA 1997.
